

## WHICH BASE IS RIGHT FOR YOU??

We offer two gelato bases regular or sugar-free sugar free.

Express base, is a complete mix including NZ whole milk powder—add a bag to 2L just-boiled water, mix and chill. So easy to use! Your staff can learn to make great ice cream so quickly! Express base yields a rich, creamy gelato, 34% solids, rich in protein and low in sugar and fat. It is also available without the powdered milk and sugar.

Add-a-Cow, is classic Italian, much less expensive. To make one 3 Kg tub you must add 2100 gr milk, 330 gr heavy whipping cream and 360 gr. of sugar to make a 31% solids mix. You can also substitute powdered milk and hot water in place of fresh. This may be more economical than Express base in countries where fresh milk is inexpensive.

We usually recommend that new ice cream entrepreneurs start with Express base and use it at least 3-4 months during the startup phase of your business. It makes really delicious 6% fat gelato which can be boosted

by the addition of heavy whipping cream. During startup you can start experimenting with the classic Add-a-Cow to see if it produces the savings and quality you desire.

Both of these bases come in the most popular flavors or you can buy the unflavored and add any of our delicious, all-natural flavor-pastes. No matter which base you use, you can be sure you will make the highest quality gelato in the world, rich, creamy and loaded with flavor.
